## SUMMARY

AI-focused Computer Science graduate with experience in data analysist, web development, and course creation. Skilled in data analytics and web development with mobile responsiveness. Proficient in C++, Java, Python, and SQL. Seeking opportunities in web development, data analysis, or AI.

## WORK EXPERIENCE

### Web Developer │ Nilai Lavenda Sdn. Bhd.          Jan 2025 - Present

- **Led frontend development** for a government veterinary project using Vue.js 3 and Tailwind CSS, ensuring seamless collaboration with backend teams.
- **Built a farm management system** with real-time IoT monitoring, Pinia state management, and role-based access control (RBAC).
- **Developed dynamic dashboards** using ApexCharts and responsive UI with Vue 3 Composition API and RESTful integration.

### Executive Trainee │ UMW Corporation Sdn. Bhd.          Jun 2024 - Dec 2024

- **Project Supervision:** Directed the HOD in overseeing projects by managing progress updates, streamlining workflows, and serving as a liaison between teams and the HOD.
- **Learning & Development:** Created and managed staff learning courses on the UMW LMS, enhancing employee skills and knowledge.
- **Project Timeline Management:** Maintained seven detailed project timelines, ensuring efficient execution of key projects like COBC Sime Darby and ISO audits.

### Web Developer Internship │ Bike Bear          Oct 2023 - March 2024

- **Project Development & Management:** Contributed to mobile-responsive website development for clients like AISM, IKC, and Isetan App, managing timelines and achieving over 90% best practices on PageSpeed Insights.
- **Web Programming & Design:** Developed and optimized web pages using HTML, CSS, JavaScript, and PHP, adhering to SDLC principles for code efficiency, design quality, and seamless client content integration.
- **Technical Skill Growth:** Enhanced expertise in web programming, mobile development, responsive design, and CSS optimization.

### Frontend Developer │ Frontend Simplified          May 2022 - May 2023

- Delivered 3 professional websites using HTML5, CSS3 (+ SCSS, BEM), and JavaScript best practices.
- Improved website performance by compressing, caching, and lazy loading images and components.
- Included SEO, responsive, multi-platform, and hosting support, enabling their website to be used by any browser or device in the world.
